2015/4/21

Dear Media Correspondents,

The Kabul press club is working for the capacity building and skill development of its members by organizing different professional courses. Similarly, the Press Club also performs due role in promoting educational, literary, and cultural and sports activities in the society. With the emergence of new conflict zones in the region.

As we know in few next week we will have a full new cabinet in Afghanistan. And as you know the central government has did their best role for the media, but we have still difficulties in the provinces. Journalists are faced security treats around the country.

Nearly one month back due to NDS plane MOI ordered to the provincial directorates, that never give the information to media and just MOI spokesperson can give the information to the media and this is just acceptable for the journalists and will create more difficulties for them in their work.

The other issue is about the NUG spokesmen in the Afghan ministries about the two national languages, that Kabul press club did a conference on the issue.

KPC has cleared that NUG should select the spokesmen whom can speak on both national languages fluently and secondly, the spokespersons should share the information on the time with media and also for investigative journalist they should send the information via email, Facebook, twitter and also other social media.

Your participation is highly appreciated. Please feel free to contact us if there is any question.

Sincerely
